

CONFERENCES AND EVENTS

Scientific Sessions

www.ASEScientificSessions.org

The Annual Scientific Sessions is the premier conference devoted to cardiovascular ultrasound in clinical patient care. It offers a full spectrum of educational events including symposia discussing novice, intermediate and advanced techniques.

World Summit on Echocardiography

www.wsecho.org

Located in New Delhi, India, the meeting's theme is "Global Implementation of Best Practice Opportunities and Challenges in Cardiovascular Ultrasound" and is an educational collaboration by the following consortium of echocardiography societies: American Society of Echocardiography (ASE), European Association of Cardiovascular Imaging (EACVI), Indian Academy of Echocardiography (IAE), Echocardiography Association of the Interamerican Cardiology Society (ECOSIAC), Chinese Society of Echocardiography (CSE), Japanese Society of Echocardiography (JSE), Korean Society of Echocardiography (KSE), and Canadian Society of Echocardiography (CSE-Canada). Faculty will be comprised of representatives from the partnering societies, making this a robust 3-day teaching environment.

Echo Florida

Located in Walt Disney World®, faculty discuss the strengths and limitations of established and emerging technologies and illustrate how these technologies can be used to improve and streamline patient care in a cost-conscious manner. Echo Florida provides a comprehensive review of cardiovascular ultrasound in clinical practice, and includes an emphasis on interventional echocardiography and point of care ultrasound.

Echo Hawaii

Echo Hawaii presents the latest information on the utility of established and new ultrasound technologies and their clinical applications. Low student-to-faculty ratio, and topics in contrast.

State-of- the-Art Echocardiography

State-of-the-Art Echocardiography is a premier educational venue for echocardiography in clinical practice. A multitude of topics are covered along with special workshops, a computer learning lab portion and case-based learning opportunities.

For more information about ASE courses, visit www.asecho.org.

We are the heart and circulation ultrasound specialists dedicated to improving our patients' health and quality of life. We use ultrasound to provide an exceptional view of the cardiovascular system to enhance patient care.

Join ASE, the largest international organization devoted to cardiovascular ultrasound at www.asecho.org

Nearly twenty percent of members in the American Society of Echocardiography (ASE) live outside the United States. These members work to further the field and support standards of care. ASE membership is relevant to our international members and provides specialized knowledge, essential education, and opportunities to network with their peers. Join your colleagues at ASE and be a part of the global community of echocardiography. www.asecho.org

ASE guideline development – ASE publishes many clinical recommendations, some in cooperation with international societies and all with the expertise of our members. ASE offers guidelines translated into four different languages.

Leading the Way – Engage with your colleagues and join a committee, task force, or apply for a board position and help further echocardiography in initiatives such as research, industry relations, quality improvement, and education.

ASE is a professional organization of physicians, cardiac sonographers, nurses and scientists involved in echocardiography, the use of ultrasound to image the heart and cardiovascular system. ASE is committed to excellence in cardiovascular ultrasound and its application to patient care through education, advocacy, research, innovation and service to our members and the public. Our members are heart and circulation ultrasound specialists dedicated to improving their patients' health and quality of life.

“Being a member of ASE and a Fellow of the American Society of Echocardiography (FASE) is meaningful and important. Membership provides me with the opportunity to interact with colleagues from across the globe.”

Wilson Mathias Jr., MD, PhD, FASE
Sao Paulo, Brazil

PROFESSIONAL MEMBERSHIP BENEFITS PROVIDE YOU WITH ACCESS TO THE BEST INFORMATION AND PRACTICE RESOURCES TO HELP YOU IN YOUR DAILY PRACTICE.

Join online today at www.asecho.org.

MEMBERSHIP BENEFITS:

view all benefits at www.asecho.org

- ▶ *The Journal of the American Society of Echocardiography (JASE):* Accessible via a searchable online platform and free iPad app, and filled with clinical, scientific, legal, and economic information.
 - ▶ Exclusive member resources includes free education, ASE blogs, the ASE news source ECHO, and more. Brush up on skills and view a webcast on a variety of topics that range from beginner to advanced.
 - ▶ Fellow of the American Society of Echocardiography (FASE) is available only to ASE members. Reap the benefits of your diligence by being recognized as FASE and let colleagues and patients know that you're part of an outstanding group of professionals.
- ▶ Gain access to ASE members all across the world via Connect@ASE, a member-only online platform. Join today and interact with some of the most active members in ASE.
 - ▶ As a member you receive significant discounts in live course registration, early housing notice, and the best opportunity to sign up for hands-on labs and small-setting talks.

“In this highly dynamic world of cardiac imaging, it is extremely difficult to keep pace with the advancements in science. The ASE membership does exactly that for me - provides excellent learning opportunities, helps me stay abreast with the latest in echocardiography and lets me know what my peers are doing across the world.”

Manish Bansal, MD, DNB, FASE
Gurgaon, India

Individuals who are members of the ASE enjoy being part of the largest individual membership organization devoted to cardiovascular ultrasound. Through your membership you are part of a vibrant group of colleagues dedicated to excellence in care.
