

The American Society of Echocardiography

The American Society of Echocardiography (ASE) is a professional organization of over 16,000 physicians, allied health professionals, and researchers involved in echocardiography. ASE is committed to excellence in cardiovascular ultrasound and its application to patient care through education, advocacy, research, innovation.

ASE provides resources that allow its members to keep abreast of changes in the field, improve techniques and save time and money in maintaining professional requirements. Extensive member discounts allow members to attend both live and online courses for less. There are time-saving tools for all allied health professionals who use cardiovascular ultrasound. Teaching tools, certification assistance and study aides are all available for members at www.asecho.org

ASE supports sonographer-specific issues, including holding Educators' Summits to help shape training, supporting Advanced Cardiovascular Sonography (ACS) to provide new career pathways for advanced members, and developing world-wide training outreach to create a standard of care for best patient care. ASE advocates for the profession by being a legislative leader in pushing for state licensure, the federal CARE bill and on projects like developing recommendations for the growing exposure to radiation within multi-modality labs.

As a member

- Become involved in the influential Council on Cardiovascular Sonography. This council impacts guideline development; shapes live education and symposia and represents the society in initiatives including research, training and quality improvement.
- Work with your peers and physicians collaboratively on ASE committees and task forces to affect changes in practice and set standards.

“ASE provides essential clinical, research, and educational resources for the cardiovascular sonographer. Whether you are new to the field, job-searching, or looking for professional development opportunities, investing in an ASE membership will provide you with excellent tools to develop and maintain your career.”

Merri Bremer, RN, RDCS, FASE

ASE is proud to be a partner in Choosing Wisely®, an initiative spearheaded by the American Board of Internal Medicine Foundation. This campaign is intended to help physicians and patients have the important conversations necessary to ensure that the right care is delivered at the right time. For more information, please visit www.asecho.org

Collaborative work requires collaborative support.
ASE supports Allied Health practitioners.

www.asecho.org

“Our members access free education, automatic reporting of credits to credentialing authorities, a robust online networking community, and a great group of professionals that work very hard to support one another. It is the best membership value out there.”

David Adams, RCS, RDCS, FASE

AN ASE MEMBERSHIP PROVIDES YOU WITH VALUABLE RESOURCES, INFORMATION AND SUPPORT. AN ASE MEMBERSHIP IS A GREAT INVESTMENT IN YOUR CAREER.

CONFERENCES AND EVENTS

Members receive discounts and early registration to all ASE meetings

Scientific Sessions

www.ASEScientificSessions.org

The Annual Scientific Sessions is the premier conference devoted to cardiovascular ultrasound in clinical patient care. It offers a full spectrum of educational events including symposia discussing novice, intermediate and advanced techniques.

Echo Hawaii

Echo Hawaii presents the latest information on the utility of established and new ultrasound technologies and their clinical applications. Located in a lovely setting, this meeting features low student-to-faculty ratio and a focus on Contrast and its applications in patient care and Echo in Critical Care Medicine.

State-of-the-Art Echocardiography

State-of-the-Art Echocardiography is a top-notch comprehensive course for learning the ins and outs of echo in clinical practice. A multitude of topics are covered along with special workshops, a computer learning lab portion and case-based learning opportunities.

Echo Florida

Located in Walt Disney World®, faculty discuss the strengths and limitations of established and emerging technologies and illustrate how they can be used to improve and streamline patient care in a cost-conscious manner. Echo Florida provides a comprehensive review of cardiovascular ultrasound and includes an emphasis on interventional echocardiography and point of care ultrasound.

MEMBERSHIP BENEFITS:

view all benefits at www.asecho.org

- ▶ Automatic credit reporting to American Registry for Diagnostic Medical Sonography (ARDMS) and Cardiovascular Credentialing International (CCI) included for all members.
- ▶ The *Journal of the American Society of Echocardiography* (JASE) is filled with clinical, scientific, legal and economic information. ASE members receive free iPad app access.
- ▶ Gain access to ASE members all across the world via Connect@ASE, a member-only online platform. Join today and interact with some of the most active members in ASE.
- ▶ Up to \$400 worth of FREE CME/CEU at ASE University is available every year.
- ▶ Opportunity to be a Fellow of the American Society of Echocardiography - FASE members stand out among their peers as professionals that have specialized knowledge. This recognition is career-enhancing and can influence salary levels.
- ▶ Access to comprehensive and affordable professional liability insurance for sonographers is an easy way to protect your livelihood.
- ▶ As a member, you receive significant discounts on products to help with credentialing, discounts on live courses, and have the first opportunity to sign up for hands-on labs and small-setting talks.
