ASE Scientific Sessions 2024 Call for Proposals

Contact Information
Name: John Doe

Email: jdoe@asecho.org

Institution/Society/Organization: American Society of Echocardiography

---

Session Information
We are looking for interactive sessions that are based on disease state, hot topics, or a collaboration of multimodality.

Proposed Session Title*

A Soapbox Debate - AI: What does it mean for my future?

Proposed Session Format (select all that apply)*

NOTE: Interactive sessions will be given higher priority than didactic

- ☐ Case-based Learning - Discussion of specific scenarios that resemble or typically are real-world examples.
- ☐ Chalk Talk - Small group discussion; no slides just white board
- ☑ Debate - A formal discussion on a particular topic, in which opposing arguments are challenged.
- ☐ Discussion - Pose a question for an informal conversation with experts and attendees.
- ☐ Gaming / Competition - Those in which players play against one another; involve multiple competing players or teams (i.e. Echo Jeopardy, Kahoot!)
- ☐ Interview - Discussion between two people face to face.
- ☑ Panel Discussion - Discussion about a specific topic amongst a selected panel of experts.
- ☐ Workshop - Small group of people engage in intensive discussion and activity on a particular subject or project.
- ☐ Other

Session Description*
Enter topics for debate, panel discussion or interview. Include your vision of this session.

Two legends debate the topic of "*Will AI Replace the Echocardiographer and Sonographer?*". They get time to argue their side, deliver a rebuttal and then a panel of experts discusses the topic.

Session Level*
What level of information will be delivered during this session?

- ○ Basic
- ◉ Basic / Intermediate
- ○ Intermediate
- ○ Intermediate / Advanced
- ○ Advanced
- ○ All 3

Session Duration*
- ○ 30 minutes
- ○ 45 minutes
- ◉ 60 minutes

Knowledge and/or Practice Gap Addressed*

In a world where AI is all around us, everyone wants to know what the impact will be on their career. Having experts in the field address their vision of what the future brings will help bridge the knowledge gap and help our members better navigate their career path.

Session Highlights
Describe any special characteristics of the session (equipment needed, specific faculty based on expertise, etc.)

Recommend Steve Lester as one of the debaters. The panel could include Ted Abraham. Would be great to have a real soapbox for effect.

Additional Information

If there is any additional information you would like to include, please enter it in the comment box below.

Comments

This session would be for both physicians and allied health professionals since AI has an impact on everyone.
